

Quality Policy

Borr Drilling is dedicated to achieving the highest standards in drilling services, surpassing client needs and adhering to internal and external requirements.

Borr Drilling has implemented the Borr Management System (BMS) to provide a framework for safe and consistent operations globally for our fleet and to foster continuous improvement.

Regular performance reviews and data collection strengthens our ability to meet and exceed client requirements, stakeholder expectations, and continually improve.

We are committed to delivering reliable, value-driven drilling services. Quality improvements are further pursued through assurance programs, ensuring each employee consistently performs their job to the highest level.

Our **Quality Policy** Objectives are:

- ▷ Improving client satisfaction through an efficient feedback process.
- ▷ Continuous quality improvement through effective assurance programs.
- ▷ Strict adherence to the quality management system.
- ▷ Consistent monitoring of our performance versus client requirements.
- ▷ Consistent monitoring of regulatory requirements.
- ▷ Monitoring the performance of all third-party providers in order to achieve the best project outcome.

We commit to our clients, employees, and stakeholders that we diligently strive to achieve the highest level of quality.
